

DRINKS

Late winter is a time full of hope for the seasons to come. With winter winds at our back and sunshine ahead, our orchards are bare and our gardens lay fallow. It is in our pantries and cellars that we find the flavours that will lead us into the coming spring. Here, we present to you a selection of cocktails celebrating the abundance of the harvest past. As always, we are committed to using 100% British Columbian spirits and house made ingredients as we bring you novel expressions of taste and place.
