

# WINE LIST

The Okanagan Valley and our neighbouring Similkameen Valley have hot, dry, desert-like climates, not replicated anywhere else. Framed by deglaciated mountains and extinct volcanoes, moderated by lakes, rivers and streams - we have a diverse range of ancient soils and numerous microclimates within these valleys, each presenting their own distinct terroir. We have sunshine. More hours of sunshine than most wine regions in the world, bringing us the warmth needed to ripen grapes, coupled with cool nights contributing to our wine's signature freshness and vibrant acidity. All of this, packaged up into a short, intense growing season. You're sitting here in one of the most unique wine growing regions in the world. And we're so happy you are.
